

Scanning

UCAS 2019 higher education exhibitions, including Scottish events

Our data scanning service builds your prospects database for 2020 courses. Quality, genuine, and valuable leads, enhance the performance of your own marketing campaigns.

Pricing

To receive the best value, purchase the maximum number of licences you require rather than buying a lower amount and topping up later in the year. If you purchase 60 licences initially and then decide later in the year you need another 10 you will end up paying £6,000, whereas if you had purchased 80 licences at the beginning it would only cost £4,500.

Remember:

- One licence required per device, per event
- Licences from these packages can only be used at HE Exhibitions 2019 (including Scottish events in 2019)

Package	Number of licences	Price
Individual licences	1	£250
Option 1	10	£1,800
Option 2	20	£3,000
Option 3	40	£3,650
Option 4	60	£4,200
Option 5	80	£4,500
Option 6	100	£4,750
Option 7	200	£5,000

Notes

- Access data on the day of the event (subject to internet connection)
- Use your own device – making it easier to capture the details you need
- Use new functionality to make notes on an individual once scanned
- Purchase a flexible bundle, meaning you pay for what you require and the more licences you buy the cheaper each use will be.
- One licence required per device per event (it doesn't matter how many days the event is)
- See the [ucasmedia website](#) for a detailed process of the service and how to access data.

Minimum operating system requirements are;

- Android 8 (recommended over iOS7)
- iOS7
- We highly recommend using phones rather than tablets for the best user experience.
- Minimum 5 megapixel camera
- Requires 32.4mb to download app
- Cannot be used on Windows phones or Amazon devices
- Please get in touch before purchasing to ensure compatibility.
